Critical - 1	0	0	0

Overview

1	Overall Status
2	Progress
3	Problems and Incidents
4	**Summary**

Summary

- Three Central banks commence testing later in the period

- Only one bank had not reached the ESMIG Screen by cut off

- Banks which have progressed furthest are sharing their knowledge in the weekly testing call allowing others to learn from the issues they have encountered

- Common problems are :-
  - The relevant permissions have not been applied
  - The ability to see CRDM and not TIPS
  - Separate tokens needed for TIPS and other services
  - Buttons which do not indicate their use
  - Problems creating Users and applying roles to them
  - Inability to see the TIPS menu

Thank you for the attention!
